

SECTION 2

*Using Agricultural Issues Where We Live: Animal Care and other resources,
please write your responses in the spaces provided.*

1. List at least two reasons why you feel it is important to be respectful and responsible for the care of wild animals. Explain how your reasons are based on facts or opinions.

 2. List at least two reasons why you feel it is important to be respectful and responsible for the care of domestic animals. Explain how your reasons are based on facts or opinions.

 3. List at least two reasons why farmers should be especially respectful and responsible for the care of wild animals. Explain how your reasons are based on facts or opinions.

 4. List at least two reasons why farmers should be especially respectful and responsible for the care of domestic animals. Explain how your reasons are based on facts or opinions.

 5. Define a "Quality Assurance Program" and give reasons why the pork, beef, dairy, sheep, turkey and egg producers participate in quality assurance trainings and implementation programs.

 6. Analyze how "Quality Assurance Programs" affect you.
-

SECTION 3

Use Agriculture Where We Live: Animal Care and other agricultural resources to show how people demonstrate respect and responsibility for the animals in their care.

GUIDE TO ANIMAL CARE

| Animal | Good food and water and access to them | Proper health and veterinary care | Comfortable living environments | Appropriate animal husbandry practices | Proper handling procedures | Safe and healthy ways to transport |
|------------------|---|--|--|---|-----------------------------------|---|
| Pet Dog | | | | | | |
| Pigs | | | | | | |
| Cattle | | | | | | |
| Deer | | | | | | |
| Pet Bird | | | | | | |
| Turkeys | | | | | | |
| Goldfinch | | | | | | |

SECTION 4

Please write your responses in the spaces provided.

1. Use your observation, communication, and information-gathering skills including a variety of resources and investigate at least two livestock or farm animals that live in your county.

LOCAL LIVESTOCK

| Type of farm animal | What does it eat and where does it eat? | Where does it live and why? | How do the farmers handle the animals? | What good husbandry practices does the farmer use? |
|---------------------|---|-----------------------------|--|--|
| | | | | |
| | | | | |
| | | | | |

2. Create a list of sources of information where you see or hear messages about the care of wild and domestic animals. Summarize at least two of the messages you have heard or seen by listing the main points. Explain how the messages and main points are based on opinions or facts.

3. Write an action plan describing how you personally can take better care of wild and domestic animals.

4. Make a list of other people or groups in your community that may want to know more about taking care of animals. Create plans showing how to help them. (You may want to use a table format.)
